The Day Care family share is based on the amount of the family’s income that exceeds the current Income Eligibility Standard. There is one basic family share for a family regardless of the number of children receiving day care services. The parent must pay the family share directly to the provider.

FORMULA USED TO DETERMINE FEE:

Annual Gross Income minus (-) State Income Standard times (x) 1% = Weekly Fee ÷ 52 (weeks)

Low Income cases will pay a fee of at least \$1.00 per week, Transitional Day Care, payee cases and home-less clients have no family share
